

The Rites of Passage Framework

Level 1 Leadership Training

29 - 31 May 2026

STONNE, FRANCE

**Rites of
Passage Institute**

This training offers the opportunity to experience this work at Kasteel voor Bewustwording, a castle in the French Ardennes that is often experienced as a mystical place, surrounded by forests and open fields.

The site is intentionally dedicated to work with transition, initiation and deep human encounter, and is used for transformational programs, retreats, systemic work, one-to-one parent-child processes, and community gatherings.

The natural surroundings and the lived practice on site create a grounded and supportive setting for learning and experiencing.

Led by Dr. Arne Rubinstein OAM, Founder of the Rites of Passage Institute, participants will explore the model and methodology of the Rites of Passage Framework through experiential learning, storytelling, and group connection.

With almost 30 years of experience, Dr. Rubinstein has guided over 450,000 people through transformational programs across 25 countries worldwide.

29 - 31 May 2026 | Stonne, France
